The "[Starry Night Bed](#)" has more technologies than you can shake a remote at, but let's face it: It looks pretty homely, especially considering the cost of the \$50,000 model.

The "[Sphera](#)" pictured here, on the other hand, is as much a work of art as it is a functional piece of multimedia furniture. The creation of designer Karim Rashid, whose work has [appeared on Crave](#) before, is an ultra-modernistic bed that includes a built-in 32-inch TV, massage system, LED canopy lights, and, of course, [a champagne holder](#), according to BornRich.

As nice as it is, however, there's one potential deal-breaker: It must have a [waterbed](#).
