Introducing Karim Rashid's NV adjustable sleep system

Naveen | 15 hr. ago

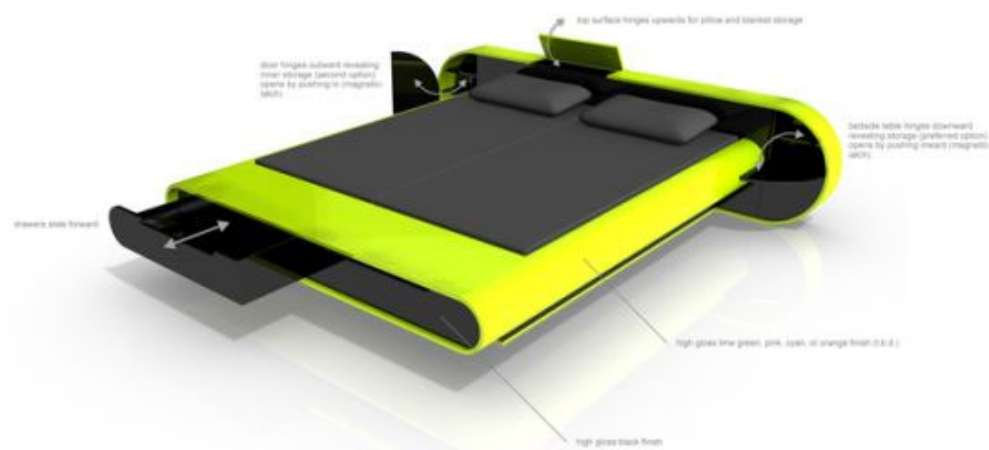

VALENTINE'S DAY BOUQUETS

starting at **\$19.99**
plus shipping and handling

I want a FREE vase with purchase

Renowned designer Karim Rashid has already raised eyebrows with his [Clicquot Loveseat](#), [Globalight](#) and the outstanding [Sphera Bed](#). He has now once again teamed up with [Hollandia International](#) to create the NV adjustable sleep system. Offering a perfect blend of form and functionality, the NV adjustable sleep system enjoys a high gloss finish, drawers for storage under the bed and in the headboard, an iPod docking station and cabinet doors in the headboard that swing out to create side tables. With clean lines, artistic choice of materials and compact design, the NV adjustable sleep system by Karim Rashid certainly deserves a place on the list of high-tech luxury beds.
