## TV Bed Powered with Subwoofer & iPod Dock: Your Own Luxury Oasis

Recently, we told you about the [TV Wardrobe](#) but if you prefer a [TV bed](#) over the other TV furniture then besides some of the fabulous options we gave you in the past, another one that

stands-out on the list comes from Hollandia International, known for world's most luxurious, restful, and expensive advanced sleep systems. The company's latest [Hollandia Platinum-Luxe Elite](#) sleep system boasts loads of other luxury options besides a retractable 32-inch Sony Bravia HDTV integrated into the bed's footboard. The TV sits 80 inches from the headboard, slightly exceeding the normal 1:3 ratio of screen size to viewer distance, and the brightness dynamically adjusts to the ambient light, to reduce eye strain. The Elite is also equipped with a Sony Bravia theater system that includes a five DVD/CD changer, a five speaker surround sound system, a subwoofer beneath the bed for a complete hi-end experience, and an iPod docking station.

Last but not the least; the bed gently adjusts to a comfortable reclining position. And, the most useful feature is the integrated massage system that features four powerful motors with a micro-computer that provides 12 individual massage programs, and a 30-minute automatic shutdown. It also has a 13-inch retractable back-sliding system and Hollandia's telescopic head support. All the features are beautifully engineered into the bed, there are no unsightly wires visible in the room. Avi Barssessat, CEO of Hollandia International says, "We want Americans to stay in bed," (naughty..kidding!!).

The bed looks gorgeous design-wise too. The base is covered in Italian-designed fabric; a new, 100 percent synthetic fiber that protects the frame from pets, particularly cats that scratch at it...so, if you have a pet..need not worry. The Elite is available in white or gray to complement any bedroom décor.

Want more! The company's future Elite models will also connect the surround sound system with Hollandia's renowned massage system, which will respond in sync with musical rhythms. So, need time to unwind and don't feel like getting out of the bed then you can enjoy a personal movie theater experience right there!
