

## **World's Most Luxurious Beds**

February 28, 2007

We hear about new stores opening all the time. But we had to go see this one for ourselves!

Hollandia is a new mattress store in the King of Prussia Mall. It's the first Hollandia store in the United States, selling the world's most luxurious beds!

But these beds don't come cheap. They start at \$15,000 and can go all the way up to \$60,000!

The beds are made up of tough steel frames making the bed indestructible. They also have the best safety features of any bed in the world!

And even better, the mattresses are covered in special aloe vera fiber which makes them really soft to sleep on.

Hollandia COO David Ashe says there are three things that make these beds great for anyone.

He says, "We do three things. One, we elevate your head as much as you like and it will improve your breathing. Two, we elevate your feet, which will improve your circulation. Finally, we take the pressure off of your lower back and give you that little bit of bend."
