

Have Money to Burn? Pay \$35000 for a Bed

By Alexis, November 09 2007

The people over at Hollandia International has created a magnificent bed that has so much stuff you could pretty much live in it - the PLATINUM-LUXE™ Elite sleep system. The only catch is that it comes with a hefty price tag of \$35,000. You'll have to leave your bed to go to work in order to afford it.

The mattress is made from naturally ventilated, hypo-allergenic Vita Talalay latex covered in aloe vera fibers for extra softness. The mattress is designed to wick away any perspiration. It has individual 13-inch retractable back-sliding systems and telescopic head supports that silently adjust to the perfect reclining position at the push of a button.

The PLATINUM-LUXE™ Elite sleep system is equipped with a 32-inch flat-panel Sony HDTV that slowly rises from the footboard. It also has a Sony BRAVIA® Theater System with a five DVD/CD [changer](#), a five speaker surround sound system, a subwoofer beneath the bed and an iPod docking station.

If you actually live in your bed, I guess \$35,000 doesn't seem too much to pay.
