## Luxury bed helps you get your groove on

RELATED ENTRIES: [MISCELLANEOUS](#)

Who would have thought beds could be cool? The Gravity Zero Groove sleep system from Hollandia International comes with a 150-watt sound system built in to make drifting off to La-La Land a more soothing experience, but after looking at the stylish lines and contours, sleeping may be the last thing on your mind.

In addition to the speaker system, the Gravity Zero Groove bed includes a massage system with 12 preset programs, and the ability to make a lumpy old mattress comfortable with four adjustable points on the mattress for back and shoulder comfort. No word on price for this funky design, and really, can you put a price on a good night's sleep? — *Stephen Schleicher*
